

Strategic Vision 2018

Our commitment moving forward.

MISSION

The Connecticut Council for Philanthropy is an association of grantmakers committed to promoting and supporting effective philanthropy for the public good.

VALUES

TRANSPARENCY
AND OPENNESS

ETHICAL
CONDUCT

RESPONSIVENESS

DIVERSITY,
EQUITY, AND
INCLUSION

STRATEGIES

Improve Data

CCP will make new investments in data to better identify trends, strengths, and gaps in the field. New data will be used to deepen our understanding of Connecticut grantmaking, to inform new philanthropic initiatives, and to highlight the impacts of the sector.

Strengthen Leadership

CCP will strengthen leadership in the philanthropic sector by building philanthropic capacity to influence state policy, establishing a state table for philanthropic leaders, and increasing and focusing our communications efforts.

Support Learning

CCP will bolster its program development capacity in order to offer high quality learning opportunities focused on the nuts and bolts of philanthropy, trends in the field, emergent and urgent issues, and professional development skills.

Deepen Commitment to Equity

CCP will host programs and trainings to increase philanthropic learning about diversity, equity, and inclusion. Also, CCP will update its communications, policies, and practices to ensure that they reflect the organization's commitment to advance diversity, equity, and inclusion.

Build Community

CCP will continue to foster networking across issues, strategies, and geography to support a connected and collaborative grantmaking community. CCP also will bring funders together with policymakers, experts, and state and community leaders.
